ON PREMISES / ON CLOUD

WHICH
DEPLOYMENT
BEST FITS
YOUR
ENTERPRISE?

At CommSouth, we offer a choice of powerful data deployment models that offer security, control and compliance. Choose an option that aligns with your operational requirements and growth strategy. Our array of products include **Call Accounting, Billing & Reporting (CDR), Call Recording, Contact Centre Suite, Fax over IP and Hospitality**. Depending on the sensitivity of your organisation's data you can choose to deploy your choice on-premises or on-cloud in a Data Centre.

CommSouth

WHAT'S YOUR CHOICE?

HOSTED ON PREMISES

Make a one-time investment for lifetime access to your software, hosted within your infrastructure.

Ideal for

- Organizations prioritizing data control, security, and compliance.
- Businesses seeking complete control over their IT environment.
- Creating a Redundant server as an alternate for the same data storage.

Benefits

- *Full Ownership:* One-time investment
- *Integration:* Seamlessly integrate with existing on-site systems and tool

HOSTED ON CLOUD

Opt for Cloud-based hosting for the subscription model

Overview

Access our solutions via the cloud with a flexible monthly subscription model.

Ideal For

1. Very less initial investment, and literally NO Maintenance charges
2. Businesses aiming for scalability and remote accessibility
3. Fetching Upward mountable hardware and space in no time

Benefits

- *Scalability:* Easily adjust resources to match your business growth
- *Accessibility:* Access your tools and data from anywhere, at any time
- *Maintenance:* Enjoy automatic updates and dedicated support without the hassle of in-house maintenance
